

## 4.0 Transformational Leadership Coaching

*“Change is doing things differently, a shift in behavior. Transformation is a new way of being, a shift in values”*

(Richard Barret)

To illustrate the dimension when we talk about transformation, change is an alteration at the same level of consciousness (we move chairs back and forth on the same floor) and transformation is an update of my operating system, a new value system, and a new view of the world (we are moving to a higher floor).

### 4.0 Transformational Leadership Coaching

Inspired by the most recognized Thinker, Authors and Practitioner of our days like Ken Wilber, Otto Scharmer, Rainer Weber and many others, Transformation is an inner deep dive and lasting exercise we can do as human beings. According to these leaders, developing consciousness and transforming your SELF is the most effective way to face the challenges of our time.

The preferred language of this kind of coaching is German.
